I. Lander County LEPC Goals

- It is the primary goal of the Lander County LEPC to provide appropriate response capabilities to natural or man caused events that threaten the safety and security of County citizens and visitors.
- It is the secondary goal of the Lander County LEPC to provide assistance to other state and local agencies during natural or man caused events that threaten the safety and security of the neighboring counties and communities.
- It is the secondary goal of the Lander County LEPC to remain in compliance with State SERC and Federal EPCRA requirements.

II. Objectives

The Lander County LEPC will improve Hazardous Materials response and mitigation through increased training, by conducting realistic disaster drills and by obtaining critical emergency response equipment. The Lander County LEPC was reorganized in June of 2007 and has properly completed all of the requirements to be eligible for state and federal grant funding. The Lander County LEPC has recently completed the development of an all-hazards, Emergencies Operations Plan (EOP) and the purchase of two mobile Hazmat Response Trailers. The newly revised all Emergency Operations Plan and equipment will provide the county with a current, comprehensive set of integrated emergency response procedures and equipment that will provide the capability to respond to a Hazardous Materials Incident at the operations level. It will also provide continuity with our neighboring counties and State and Federal agencies.

Total Expenses Including Operating Expenses \$32,262.34

IV. Budget Narrative

Overview

There are several major transportation routes through Lander County (I-80, US50, SR305, SR376, SR722 and two railroad tracks). Lander County provides emergency response support to the Austin and Battle Mountain communities and to the citizens and businesses located in the rural areas throughout the county. In a regional look, this includes eight mines, two hydrocarbon bulk storage facilities, an ammonium nitrate manufacturing facility, two large power generating plants in addition to the extensive quantities of hazardous materials that are transported through Lander County along the Interstate 80 corridor and the railroad. Lander County also provides assistance to the neighboring emergency response agencies of Humboldt and Eureka Counties. The equipment and training outlined within this grant request are essential to fulfilling that mission.

Planning

No funds requested.

Equipment

The items outlined in the equipment list will be used to prepare two Hazardous Materials Response Trailers that were purchased in FY 2009. Lander County LEPC's immediate goals is to obtain grant funding to purchase the required equipment needed stock these trailers in preparation of a response to Hazardous Materials Incident, at the Operations Level. The equipment identified on the list will be equally distributed between the two response trailers. One trailer is located in Battle Mountain, while the other will be positioned in Austin. Specific equipment requested under this grant is broken down by the following functional areas:

- *Hazmat Decontamination.* The five gallon buckets, sprayers, decon wands, water manifold, grey water bladder, decon shower sump pump, decon shower, decon stretcher, and the hazmat decon bags will be used for hazmat decontamination at the incident scene.
- *Command, Control and Communication.* Folding Tables, Command Board, Zone Warning Tape, Stools, Air Horns, Cones, Mega Phone, Flood Lights, IC Vests, Portable Weather Instruments will all be used to control the incident scene, and to establish a portable command center at the incident scene in the response trailer.
- *Containment.* The storm drain covers and dike containments are for spill containment.
- *Radio Communication.* The mobile radios are planned to provide a basic VHF communications ability from the mobile command center (Hazmat Trailer) at each incident scene. Lander County lacks the ability to utilize 800 MHZ radios outlined on the SERC standard equipment list. All Lander County radios operate in the VHF spectrum. The requested radios are p-25 compliant as outlined on the quote.

- **Alternate/Contingency Items:** The following items are listed in the event that some of the equipment on our list is not approved. Please add items from the following prioritized list be added in the place of items not approved up to the maximum allowable grant of \$30,000:

Priority	Item	Vendor	Cost
1	Generator	State Equipment List	\$2066
		S/H Charge	
2.	One HAZCAT KIT	HAZTECH Systems	\$3812.00
		S/H	\$75
3	EMS Port Decon System	First Responder Network	\$1421.20
		Shipping and Handling	\$
4.	One Hospital Decon Table	First Responder Network	\$4116.52

Training

The Hazardous Materials training needs anticipated for Lander County in FY 2010 should be funded through the State Fire Marshal's Office. No funds are requested.

Operations

The Lander County LEPC requests \$4000 for annual operational funds with 50 percent of these funds being allocated for clerical/administrative assistance.

CERTIFIED ASSURANCES

**A COPY OF THESE ASSURANCES, IN ITS ENTIRETY, WITH ORIGINAL
SIGNATURES, MUST ACCOMPANY THE GRANT APPLICATION**

Upon acceptance of funding from the State of Nevada Emergency Response Commission (SERC), the lead governmental unit hereby agrees to the following Certified Assurances governing the awarding of funds.

- A) FINANCIAL REPORTS** – The grantee/sub-grantee agency is required to submit, at a minimum, quarterly financial reports to the SERC. Reporting must be made in accordance with all applicable federal, state, and local laws and regulations, and SERC Policies 8.5 and 8.6.

No expenditures or obligations will be eligible for compensation if occurring prior to the award period. All funds need to be obligated by the end of the grant period and expended by the final report date as stated in the grant award cover letter. Failure to submit proper reports pursuant to current policies may jeopardize future funding from the SERC.

- 1) Request for advance:** May be used only if expenses total over \$2,000.00 and is accompanied by a dated purchase order or quote.
- 2) Report on expenditure of advance:** Show the actual expenditure of the advanced funds. This report is due **within 30 days** of the date of the advanced check and must include copies of dated invoices and proof of payment. If the amount advanced is more than the amount spent, or the advanced amount is not spent within the 30 days, the unexpended funds are to be returned to the SERC within 45 days of the date of the check.
- 3) Request for reimbursement:** Complete and submit a financial report form, at a minimum quarterly, for all expenditures funded by the grant. Include copies of dated invoices and proof of payment. Any other form of documentation for expenditures must be approved by the SERC staff. If additional funds are used toward the project, report those expenditures as a **match** in the appropriate line on the report form.
- 4) Quarterly report required:** If there are no expenditures within the quarter, a report with an explanation of why is due by the end of the month following the end of the quarter. Due dates for quarterly reports are as follows:

October 31	- for reporting period July 1 to September 30;
January 31	- for reporting period October 1 to December 31;
April 30	- for reporting period January 1 to March 30; and
July 31	- for reporting period April 1 to June 30.
- 5) Final report:** There will be no further expenditures, the grant is closed, and no further reports are necessary. This report is due within 45 days after the end of the award period, or anytime prior to the end of the award

period if no further funds will be spent.

- B) Exercise report:** Each LEPC must report to the SERC by January 31st of each year on at least one real event and/or tabletop, functional, or full-scale exercise or drill which tests the hazardous materials emergency response plan.
- C) GRANT CHANGE REQUEST -** Grant expenditures are authorized for the purposes set forth in this application, as approved in the grant award, and in accordance with all applicable laws, regulations, and policies and procedures of the State of Nevada and the applicable federal granting agency. Any request for change in the project must be submitted to the SERC and approved in writing prior to its implementation. Approval may be required by the Funding Committee if the change is significant (SERC Policy 8.7).
- D)** The applicant certifies, through the submission of the grant application for funding, neither the lead agency, county government nor any of its participating agencies are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in the transaction by any federal department or agency.
- E)** The applicant assures that the fiscal accountability of the funds received from the State Emergency Response Commission will be managed and accounted for by the lead agency's chief comptroller and that internal control and authority to ensure compliance with SERC's documentation, record keeping, accounting, and reporting guidelines will reside with that individual.
- F)** The applicant and its contractors will comply with the nondiscrimination requirements of the Civil Rights Act of 1964; Section 504 of the Rehabilitation Act of 1973; Title IX of the Education Amendments of 1972; the Age Discrimination Act of 1975; and the American Disabilities Act of 1992.
- G)** The applicant will abide by audit requirements as specified in OMB Circular A-133, Audits of State and Local Governments as revised August 29, 1997.
- H)** Any publication (written, visual, or audio) issued by the sub-grantee describing programs funded whole or in part with federal funds, shall contain the following statement:

"This program was supported by Grant # _____, awarded by the Nevada State Emergency Response Commission (and, if a HMEP grant, the U.S. Department of Transportation). Points of view or opinions contained within this document are those of the author and do not necessarily represent the official position of policies of the State Emergency Response Commission (and, if a HMEP grant, U.S. Department of Transportation)."

- I) The applicant fully understands the State Emergency Response Commission has the right to suspend, terminate, or de-obligate grant funds to any grantee/sub-grantee that fails to conform to the requirements or the terms and conditions of its grant award.
- J) **LOBBYING** - No grant funds appropriated will be paid, by or on behalf of the grantee/sub-grantee, to any person for influencing or attempting to influence an officer, employee, or a member of Congress, or an officer, employee, or any member of the Nevada State Legislature.
- K) Project related income, (i.e., registration fees, royalties, sales of real and personal property) must be used for the purpose of furthering the goals and objectives of the project or program from which the income was generated. Interest earned must be returned to the State Emergency Response Commission.

LEPC COMPLIANCE CERTIFICATION

The following must be met by the Local Emergency Planning Committees (LEPCs) as requirements for compliance with federal and State laws and regulations, and SERC policies and procedures. This checklist must be completed, signed, and returned with grant application, or annually, by March 31, if the LEPC is not applying for grant funds.

A check mark in the squares on the left will indicate a YES response.

☒ Have changes in the LEPC Bylaws and Membership list been submitted to SERC?

Bylaws reviewed/updated - Date: 1/13/2009 Submitted: 1/30/2009

Membership list reviewed/updated - Date: 1/13/2009 Submitted: 1/30/2009

☒ Have LEPC meetings been held, at a minimum quarterly, and have agendas and minutes of all meetings, including special meetings, been forwarded to the SERC?

Has the LEPC submitted all required reports which summarize the financial management of the active grants (*i.e., copies of invoices and verification of expenditures*)?

Has the LEPC reviewed and/or updated its hazardous materials emergency plan (or haz-mat portion of the jurisdiction's "all hazards" plan) within the last year? Have Plan review results and updates been submitted to the SERC in writing along with a copy of the LEPC meeting minutes documenting review of the Plan?

Review/update - Date: 1/9/2009 Submitted: 1/30/2009

☒ Has the LEPC conducted and reported on at least one incident or exercise, tabletop or full scale, of its hazardous materials emergency response plan within the last year?

Indicate the date of the most recent exercise: 9/6/08 Reported: 9/16/2008

☒ Has the LEPC met the **annual** requirement of publishing the Emergency Planning and Community Right-to-Know Act "information availability" in the local newspaper? Has the standard Affidavit of Publication been sent to the SERC?

Date of publication: 10/8/08 Affidavit Submitted: 11/12/2008

As chairman of the LANDER Local Emergency Planning
County Name

Committee, I attest all information provided on this compliance certification is accurate.

Karen Pabón, Executive Director
Nevada State Emergency Response Commission
2621 Northgate Lane, #10
Carson City, NV 89706

**RE: Lander County Local Emergency Planning Committee Application for
FY2010 SERC Planning, Training, and Equipment (PTE) Grant**

Dear Ms. Pabón;

Lander County LEPC is pleased to submit the attached application for consideration of a SERC FY2010 PTE grant. The application package details an inventory of response equipment that would outfit two hazardous materials response trailers obtained with funds from the 2009 PTE grant.

In correspondence dated March 3rd, 2009, Lander County LEPC provided the SERC with a copy of the Emergency Operation Plan, Letter of Promulgation. With that submittal, it is our understanding that we are fully compliant with SERC Policy and have satisfied the Planning and Training Subcommittee finding.

If you have any questions or require additional information, please feel free to contact me at 775.635.6649.

Sincerely,

Mark Bennett
